

Appendix 1 - Average weekly collection over the entire season

This chart shows a breakdown of how the average collection varies week-by-week, and the average monthly collection over the whole season.

While the week number may not line up exactly with the given month, it does clearly show that collections improve as the season progresses.

It can be seen that collections start off low in May, and improve throughout June, July and August.

From a purely collecting point of view, we should therefore look to do as many August weeks as we can.

						Averages	
Week No:	2022	2023	2024	2025	2026	Weekly	Monthly
May BH 0						0.00	May
1		59.22		43.57	28.31	43.70	
2	4.00	29.83		50.15	81.59	41.39	
May BH 3						0.00	42.55
4		74.32	43.21	86.85		68.13	June
5	86.10	55.67		111.76	63.29	79.21	
6	84.10	71.81	77.50	57.17	67.05	71.53	
7	75.09		112.97	54.04	82.36	81.12	74.99
8	115.20	68.07	81.02	60.53	133.86	91.74	July
9		39.82	93.84	87.21	60.50	70.34	
10	63.30			94.40	53.55	70.42	
11		98.58	57.06	85.94	110.87	88.11	78.34
12				104.43	37.73	71.08	
13	94.68		121.31	108.00	98.37	105.59	
14	126.67		84.47	115.18	78.23	101.14	August
15						0.00	
Aug BH 16						0.00	103.36

Figures in *italic* show when we had a guest team dancing with us.

Appendix 2 - Euro coins:

This is a list of the Euro coins I have. If anyone can use them, then I will willingly swap them for a similar value [eg: to the nearest €5 below] in Euro notes.

2.00	6.00
1.00	7.00
0.50	8.50
0.20	8.40
0.10	4.50
0.05	1.90
0.02	0.52
0.01	0.23
Total	€37.05
